Space Planning  
Furniture Specification

**What we did**

In an effort to accommodate a rapidly expanding company Workplace Designs designed a new office space to create a vibrant and flexible facility to support their ways of working.

The team created a dynamic, contemporary work environment focused on a natural green theme that perfectly suited the young team. The project delivered a workspace where people could be supported and engaged in their day-to-day tasks.

The project was delivered within the agreed time frame and within budget.
