Furniture Specification & Procurement

What we did

Workplace Designs was appointed to undertake the design and build for this high-end project for a well known international client.

This innovative and efficient solution combines bursts of vibrant colours with multiple textures and patterns while creating separation for staff having breakouts or informal meeting. Wood benches add value to the collaboration area and the open kitchen is a place for employees to congregate, refresh and have meetings. Workplace Designs specified all furniture, fixtures and Finishes.
