Project Type:	Contemporary Office Design
Value:	£100,000
Involvement:	Concept design Mood and finishes board Furniture specification and procurement Technical drawings for tender Tender assessment Fit out project management

Workplace Designs were appointed to design, procure and manage the fit out of this canal side office in London. The team developed a range of options for the client including details of furnishings, flooring and finishes.

The final design was developed into a full set of technical drawings and associated schedule of works. These were then competitively tendered and the returns assessed in house and the contract awarded.

The fit out was fully managed by WDL and all of the loose furniture procured direct from the manufacturers.
