**Value:** £100k  
**Involvement:** Concept and Working Design  
Interior Design  
Furniture Specification  
Reception Desk Design

Workplace Designs were appointed to design and develop a full interior scheme of this reception area to form an entrance point into a newly refurbished multi-tenanted high specification office.

Through consultation with the client, WDL specified all finishes, fittings and furniture, included the design of a bespoke reception desk, and new ceiling lighting layout.

The clean lines and luxurious materials, such as walnut joinery, hand-painted wallpaper, and backlit glass elements combine to provide a sophisticated introduction to what is a prestigious property.
