

Workplace Designs Limited

Ref : WDL16

Atrium Design Scheme

Atrium Design Scheme

Ref : WDL16

Project Type:	Interior Design & Procurement
Value:	£35,000
Involvement:	Concept and Working Design Furniture Specification & Procurement Installation Management

Workplace Designs were appointed to refresh this under-utilised atrium to create an area that could be used for informal meetings and discussions.

By using a variety of manufacturers and products WDL delivered a design that allows people to collaborate in a variety of environments all visually linked together by a cohesive and vibrant colour scheme.

The provision of power within a number of the tables and sofas allows people to work from their laptops with wireless connection to email.
