

WYE TASK CHAIR

A versatile and ergonomic chair designed to provide optimal comfort and support. The 3D multi-functional arms offer additional flexibility, allowing users to adjust the height, width, and angle of the armrests. The chair also includes a headrest for added neck and head support. With adjustable seat height and depth, the Wye can be customized to fit individual needs and preferences. Its intuitive handling makes it easy for users to make quick and effortless adjustments, ensuring a comfortable and personalized seating experience.

Wye Task Chair | Featuring a black PU back frame and a mesh back, this chair provides excellent breathability and support. The seat is upholstered in fabric and is made with molding seat foam and seat plywood for added comfort and durability. The black 3D adjustable armrests with Black PU arm pads allow for customizable arm support. The chair is equipped with a self-weight mechanism and seat slider adjustment, allowing you to easily find your preferred seating position. The black gas lift enables smooth height adjustment, while the black 5-star nylon base with black PU casters allows for effortless mobility on various surfaces.
