

LGT Wealth Management | Cornhill, London

WDL129/221721-001

Project type | Refurbishment, Fit-out, PM Management

Value | £1.5 million

What we did |

Having worked together on numerous projects across the UK, the team at LGT Wealth Management reached out to Workplace Designs Limited to deliver their new workspace. Operating a phased programme to minimise disruption to the client, WDL delivered this 35k sq/ft office fit-out and refurbishment in less than 8 weeks. Throughout the project, close communication and accountability were maintained through regular and detailed site reporting, giving the client full visibility of the project and peace of mind that it would be completed on time and within budget, while not compromising the quality that was promised.

Involvement | Workplace Strategy, Interior Design, Project Management, FF&E Specification, Procurement and Installation.
