Value	£2m		Client Representation
			Furniture Specification & Procurement

What we did |

Workplace Designs were appointed to represent the client in overseeing the refurbishment of a ‘Workplace Advantage’ project. This role included managing the Project Team and coordinating with multiple business stakeholders. WDL provided consultancy on furniture selection and procurement to ensure the project met both budget requirements and quality expectations. The installation phase and final relocation were successfully delivered by the WDL Moves Team. The refurbished workplace showcases a vibrant, contemporary environment designed to support collaboration, wellbeing, and a modernised working culture. The scheme brings together bold colour accents, natural materials, and carefully considered furniture choices to create a warm, engaging, and productive setting.
