

Kingdom Street | London

WDL100/216199

**Project type |** Furniture Specification & Procurement

**Value |** £200k

**What we did |**

Workplace Designs were appointed to develop the furniture scheme as a Solutions Consultant alongside the appointed Architect. WDL managed the furniture procurement process using a variety of client selected suppliers across the extensive floors of collaboration space. We developed the idea of using recycled school & laboratory worktops into wonderful bespoke tables and desks. The overall project was installed for substantially less than the budgeted market prices.

**Involvement |** Project Management

Furniture Specification & Procurement
