

## PRS for Music | London

WDL136/217449

**Project type** | Refurbishment and Interior Design

Involvement | Workplace Strategy Space Planning
Interior Design

Value | Disclosed Value

## What we did |

PRS engaged WDL to assess and reconfigure its existing facilities with the aim of releasing a floor at the Kings Cross site. The updated workspace needed to reflect PRS's modern and ambitious identity, reinforce its brand and support the attraction of high-quality talent. Working closely with stakeholders across the organisation, WDL reviewed current working practices and analysed space use, technology needs and key adjacencies. Through meetings, workshops and on-site observations, WDL developed a tailored Workplace Strategy that clarified PRS's requirements, improved workplace efficiency and set out a clear roadmap for transformation.
