

Project type	Workplace Strategy	Involvement	Leadership Team Advice, Steering Committee Member, Change Management, Relocation Strategy & Space Planning
Value	Disclosed Value		
What we did	<p>Workplace Designs Limited were appointed by Elekta in 2014 to support the development of their new flagship UK Headquarters. WDL undertook detailed space audits and produced planning scenarios to assess future requirements up to 2033. After Elekta completed the new building, WDL returned to develop and deliver the detailed move strategy, implemented in February 2018. In 2019, WDL were reappointed to review the Headquarters and an adjacent building, consulting closely with end-users. The findings informed a refined brief aimed at optimising workspace efficiency, supporting growth and improving overall performance.</p>
